How to get to the conference:

From the main train station in Lausanne, take the Metro Line 2 towards Croisettes. Change to the Metro Line 1 at Flon and get out at the UNIL-Chamberonne station. You will see the Anthropole building in front of you. You will have to walk through the building and exit on the ground floor into the gardens. Follow the pathway in the direction of the library and the Amphimax. After 80 meters, you will cross a little bridge. The ancient building in front of you is the Château de Dorigny. The main entrance is on the back of building, right in front of the parking lot.
