7-8 January 2020 | University of Lausanne (Switzerland)

Congress

YOUTH AND WINTER SPORTS

The congress "Youth & Winter Sports" will take place in Lausanne in the heart of a unique combination of research institutions, international sport organizations and an exceptional winter sport environment.

The congress offers the opportunity for researchers, sport staff and students to explore "Youth and Winter Sports" through a multidisciplinary scientific programme.

Just before the Lausanne 2020 Youth Olympic Games, the congress will provide the opportunity for delegates to learn from and to contribute to the research focusing on Youth and Winter Sports. The congress will feature a diverse range of sessions to enable scholars, including postgraduate students, the opportunity to share their latest research. Sessions and workshops will focus on specific sports, on important topics or on professional practice. It will give opportunities for researchers, practitioners and staff from sports organisations to meet and debate.

The congress will also provide networking opportunities in order to allow delegates to develop collaborative research projects and extend international scientific knowledge.

Keynote Speakers

STÉPHANE BOUTHIAUX

French Ski Federation

My long-term journey to success with Martin Fourcade

ERICH MULLER

University of Salzburg, Austria

Biomechanics and prevention of injuries in alpine skiing

ANDREW DENNING

University of Kansas, USA

History of the human-environment relationships in the Alps through the sport of skiing

MILENA PARENT

University of Ottawa, Canada

Governance and legacy of the Youth Olympic Games

HANS-CHRISTER HOLMBERG

Mid Sweden University, Sweden

Biomechanics and physiology in nordic skiing

HOLGER PREUSS

University of Mainz, Germany

Economic and socio-economic aspects of Olympic Games – Summer vs Winter Olympics

OYVIND SANDBAKK

Norwegian University of Science and Technology, Norway

Norwegian Success in winter sports

Several events will be held during the Congress:

- A session entitled "How to support young athletes?" co-organised with the IOC Olympic Studies Centre
- A specific session on winter events and urbanism
- A special meeting for the local youth athletes on the concept "Health for Performance", organized with the Swiss French-Speaking Network on Sport & Exercise Medicine (RRMES) – www.rrmes.ch

Abstracts submissions are due October 15, 2019
