

Master in Earth Sciences

Changes of evaluation modalities due to COVID-19 pandemic.

This table shows only teachings which have a change in evaluation modality due to COVID-19. The possible changes of teaching modalities are communicated by the teacher in charge directly

Teaching	Teacher in charge	Evaluation in the study plan 19/20	Evaluation for the June and August session 2020
Erosion and slope movements	M. Jaboyedoff	Written	Oral
Fluid flow for geologist	M. Lupi	Practice	Oral
Risk Management	C. Frischknecht et S. Menoni	Written	Report(s)

Special derogations

- The students are allowed to defense their Master thesis in August 2020 session, a joint day is planned on August, the 27th, 2020, at UNIGE.
- If a mandatory or optional teaching of Spring semester 2020 has to be postponed to Spring semester 2021, or if the student retreated from a mandatory or optional teaching of Spring semester 2020 and chose to follow it in Spring semester 2021, this teaching can be validated during the June session 2021 at the same time as the Master thesis

Validated by the ELSTE Excutive committee, Sciences Faculty and Geosciences Faculty on April, 27th, 2020.
