CURRENT CHALLENGES AND NEW IDEAS IN INTERNATIONAL ARBITRATION

International Commercial Arbitration remains at the forefront of modern dispute resolution, but also faces challenges ranging from questions of transparency, diversity, independence and procedure to the transformative potential of technology. Two prominent UK based arbitration practitioners will address new ideas and challenges as well as the impact of technology and AI on international arbitration, commented by a round table of Swiss practitioners. Please join the discussion!

PRICE

CHF 100.–. Free for students.
